

AHMTEC 2026

African Healthcare Manufacturing Trade Exhibition and Conference

Hosted by FAPMA and Vizuri

26 – 28 October

Ethiopian Skylight Hotel, Addis Ababa, Ethiopia

Africa's health security demands local solutions. Join us at the premier conference and trade exhibition dedicated to accelerating the growth of African healthcare manufacturing, **AHMTEC 2026**.

AHMTEC 2026 will take place in Addis Ababa with unprecedented commitment and buy-in from the Government of Ethiopia and the national and State-level Ministry of Health, setting a new benchmark. This year's theme is:

Industrialise to Commercialise

It reflects the critical transition needed to move African pharmaceutical manufacturing from capacity building to globally competitive production.

The programme is structured around two complementary tracks:

- **Environment – Industrialise:** Focusing on the enabling ecosystem required to build a sustainable manufacturing base, including infrastructure, policy frameworks, workforce development and financing.
- **Enterprise – Commercialise:** Focusing on how manufacturers scale operations, compete effectively and access regional and global markets.

Together, these tracks follow the full lifecycle of a manufacturer.

AHMTEC is much more than a conference. It assembles the leaders and decision makers in one place – advancing real deal making, partnerships and the right networks. It is focused on a singular mission: build a self-reliant African health commodities industry that empowers our continent and secures the health of our people. For too long, our continent has relied on external sources. Now is the time to:

- ✓ **POWER self-reliance** and strengthen our economies.
- ✓ **ENSURE access to** quality, affordable health products for all Africans.
- ✓ **UNLOCK the potential** of a thriving African pharmaceutical industry.

Conference Schedule

- Monday, 26th October (evening): Opening ceremony with exhibitors and welcome reception.
- Tuesday and Wednesday, 27th – 28th October: Two full days of conference sessions across this year's theme of **"Industrialise to Commercialise,"** plus networking opportunities.
- Wednesday 28th October (evening): Closing ceremony.
- Thursday, 29th October: Reserved for site visits.

Delegate Costs

Standard Delegate Rate: US\$ 500.

Special Subsidised Rate (African manufacturers ONLY): US\$ 300

AHMTEC 2026

African Healthcare Manufacturing Trade Exhibition and Conference

Hosted by FAPMA and Vizuri

26 – 28 October

Ethiopian Skylight Hotel, Addis Ababa, Ethiopia

Why attend AHMTEC 2026?

- **Industry-Led Conference:** Gain insights from African and global leaders in health product manufacturing, supply chain, innovation, regulations and policy with a focus on practical and actionable solutions.
- **Dynamic Trade Exhibition:** Discover innovative technologies, equipment, suppliers and solutions to propel your manufacturing and supply chain capabilities.
- **Strategic Networking:** Connect with partners, buyers, technical experts, policymakers, and fellow manufacturers across the continent. Participate in roundtable discussions and tailored events designed to foster meaningful collaborations.
- **Showcase Innovations:** Boost your company's visibility through exhibition and sponsorship opportunities.
- **Investment Forums:** Connect with investors actively seeking opportunities in African health product manufacturing.

AMMTEC started in Dar es Salaam in 2024 – smaller, still finding its format – but it proved manufacturers wanted a convening of their own. AHMTEC 2025 in Accra confirmed it with 264 participants, 60 manufacturers, 1000+ private messages exchanged in two days, and the signing of the Accra Declaration. The African Manufacturing Market Intelligence & Network Analysis (AMMINA) launched with 700+ manufacturers across 18 countries.

Partnering with AHMTEC

AHMTEC offers multiple partnership, exhibiting and sponsorship opportunities that leverage our unique positioning. Sponsoring the **AHMTEC 2026** – at any level – or exhibiting places your organisation at the forefront of Africa's healthcare manufacturing progress. It is more than a marketing campaign, but a statement of credibility and serious engagement within a new era of global healthcare development.

Don't miss this chance to expand your network, engage with key stakeholders, hear about updates in the sector and propel the growth of African health products manufacturing. Join us in shaping the future of African medicine manufacturing and secure your spot at **AHMTEC 2026**.

Register today.
